
Practical No 1: Creating account, repository on Github and Cloning Repository in Github page

Step 1 : Visit <https://github.com> and use “Signup” option to Create account

Step 2: Enter E-mail address, a strong password and Username

A screenshot of the GitHub account creation form. It displays three sections: 'Enter your email' with the value 'tahasyed37159@gmail.com', 'Create a password' with masked characters, and 'Enter a username' with the value 'TahaSyed10'. A 'Continue' button is at the bottom right. Below the form, a message states 'TahaSyed10 is available.'.

```
Welcome to GitHub!
Let's begin the adventure

Enter your email
✓ tahasyed37159@gmail.com

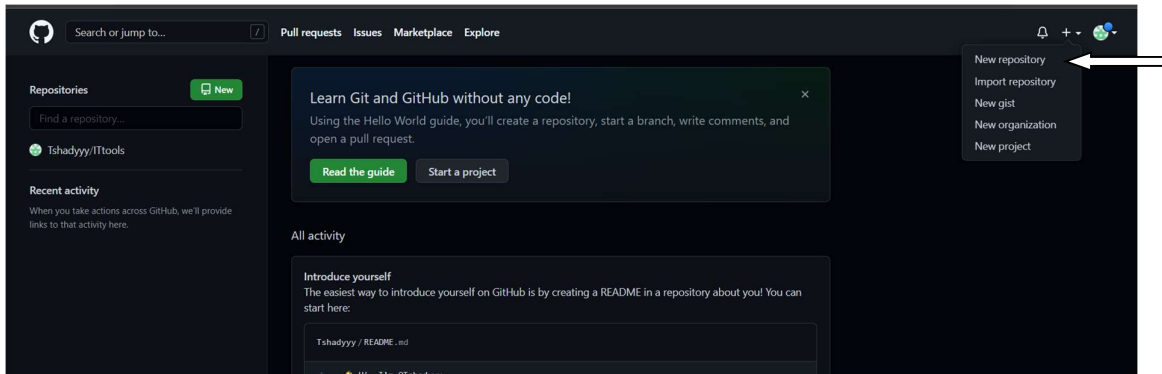

Create a password
✓ .....
